Bright Idea Mini Plaque

So what is the bright idea anyway you might ask; a plaque with a lot of character that has plenty of room for a message yet is still economical, and lightweight. If that is not enough, the metal work detail on the top is an "earth eclipse" as seen from the moon or another planet! Made from reclaimed black slate tile and scrap metal recovered from local recyclers, this piece makes a statement that is out of this world!. 6" tall.
