Recycled Content Award

Mars Mountain Sunset (RRRM Gold)

A green patina'd earth emerges from an atmospheric "sky" made of acrylic. A handcrafted brass "sun" is seen in the far distance with a flagstone "peak" in the foreground; It's an "earth-eclipse" as seen from Mars! If that does not fit with the theme of your next award presentation, look at it as an attractive award with shapes of the earth, and sun. With a slate base, this award is 6 ½" Tall, by 7 ½" Wide. (*RRRM Gold*)
