Wall Recognition

Nature Conservancy Plaque

Located in the Phantom Canyon Preserve, which is one of Northern Colorado's last roadless canyons, this "In Memoriam" plaque was created with the intent of blending into the natural surroundings. The chosen material for the plaque is copper with a dark patina. The surface of the copper was also chosen for durability in rain and cold conditions. It is delicately mounted on an uneven surface of granite using a custom anchoring system, developed by Haertling.com Awards, which uses secure mounts that hold up under heavy wind loads.

Size: 21" tall x 28" wide.
